22. FEB. 1940
Serial No. V 6906

The Secretary to Government,

Revenue Department, Secretariat, Bombay.

Subject:- Cattle Breeding Farm at Yadhalli, Peta Bilgi, district Bijapur.
Scheme proposed by the Bijapur District Rural Development Board, regarding --.

Sir,

I have the honour to enclose herewith a copy of letter, No. VLT./1, dated 31st October 1939, from the Collector and Chairman, Bijapur District Rural Development Board, containing a scheme for the establishment of a cattle breeding farm at Yadhalli in Bijapur district. It will be noticed that the scheme is proposed to be financed out of the Village Improvement Association's funds, which, in the light of recent orders of Government, have been transferred to the District Rural Development Board. The capital investment over the scheme is estimated at Rs.3,900/- and the working expenditure at Rs.400/- per annum. The scheme was initially referred to the Commissioner, Southern Division, who desired that before it is put into operation, it should be reconsidered by the District Rural Development Board. The Rural Development Board has, accordingly, considered the merits of the scheme and is satisfied that it would serve the interests of the district. The Deputy Director, during his ~~xxx~~ tour in Bijapur district, has also discussed the details of the scheme with the members of the Board.

2. As pointed out above, as the scheme is to be financed out of the Village Improvement grants, the sanction of Government to incur the necessary expenditure appears necessary. I should, accordingly, request that Government may be moved to issue very early orders signifying their approval to the scheme I am sending copies of this letter to the Commissioner, Southern

Division, and Director of Agriculture for information.

I have the honour to be,

Sir,

Your most obedient servant,

Registrar, Co-operative Societies,
and Director of Rural Development.

Accompt. 1.

Subject:- Cattle Breeding Farm at Yedhalli, District Bijapur.

Copy of letter, No. V.L.T./1, dated 31st October 1939, from the Collector and Chairman, District Rural Development Board, Bijapur, to the Registrar, Co-operative Societies, and Director of Rural Development, B.P., Poona.

I have the honour to submit herewith a scheme on the subject noted above, for favour of approval. The following are the facts that lead to the establishment of the farm:-

2. In the year 1935, the Village Improvement considered that a Cattle and Sheep Breeding Farm for producing pure pedigree bulls for distribution in the district on systematic lines was essential. Accordingly, Rao Bahadur S. S. Salimath, the Deputy Director of Agriculture, S. D., Dharwar, was entrusted with the work of preparing of a scheme and selection of suitable site for the purpose. It was found that Yedhalli in Bilgi Petha on the bank of river Krishna was best suited for the purpose, as an area of 200 acres grazing land and 117 acres and 10 gunthas kuran land was made available by the Forest Department to the Association on certain conditions. Rao Bahadur Salimath submitted ~~xx~~ a scheme for the cattle breeding farm at Yedhalli in September 1937. Then the farm was formally opened by the then Collector, Mr. D. S. Modak, in October 1937, and the following four cultivators selected as breeders:-

'A'
(1) Mr. R. M. Desai of Yedhalli.
(2) Mr. Mallangouda Patil of Galgali.
(3) Mr. Lilachand Dipachand Gujjar of Yedhalli.
(4) Mr. Ramappa Yenkateppa Biradar Patil of Yedhalli.

The following expenditure was incurred in the year 1937-38:-

(1)	Construction of one shed.	Rs. 771- 8- 6.
(2)	Purchase of 5 Khilari cows.	" 329- 2- 0.
(3)	Purchase of one Khilari Breeding bull.	Rs. 180- 0- 0.
(4)	Miscellaneous charges.	" 52- 4- 0.
		Rs. 1332-14- 0.

3. When the farm under the scheme was opened in October 1937, there were no orders of Government to the effect that every scheme should receive Government's approval before it is brought into force. But, as per subsequent orders, the scheme was to be submitted for the approval of Government. A revised scheme sent by Rao Bahadur Salimath with his letter, No. 113-C/2366, dated 3-4-38, was modified

approval of the Commissioner, through the Director of Agriculture, under this office letter, No. V.L.T./1, dated 29th Jany. 1939. But, the Director of Agriculture, who consulted the Livestock Expert to Government in the matter, raised objections and the Commissioner in his letter, No. V.L.T.17, dated 30-6-1939 informed me to review the scheme in the light of the remarks made by the Director of Agriculture and the Livestock Expert. Accordingly, the scheme was modified and submitted to the Commissioner on 10th August last, who returned it under his No. V.L.T./17, dated 26-9-39, saying that the scheme should be referred to the District Rural Development Board, Bijapur. The District Rural Development Board, after carefully going through the scheme thought it necessary to run the scheme in the best interest of this district and approved the scheme in toto in its meeting held on 8-10-39.

4. For the present, there are 5 cows, 2 calves, and one breeding bull which are looked after by Mr. Mallangouda Patil, one of the proposed four breeders, and the maintenance charges of the animals are met from the village improvement funds. The Survey No. 215 of Galgalli measuring 117 acres and 10 gunthas has been leased out for Rs.1450/- for 1939-40, and the area of 200 acres out of S. No. 225-A of Yedhalli, is not leased out as it is a minor grazing area. The capital outlay of the scheme which is being submitted for the approval is estimated at Rs.3900/- and the working expenditure at Rs.400/- per annum. Moreover, this provision of Rs.3700 has been made in the Budget provision for 1939-40 for the activities of the Village Improvement Association. (Please vide statement at page 16 of the budget estimates of the District Rural Development Board submitted to you under this office No. V.L.T.P.R.B., dated 25-10-39). The scheme is worthy of being tried. I, therefore, request that Government may please be moved to sanction the scheme so that it is brought into operation.

5. Copy of letter, No.S.68, dated 28-4-39 together with its accompaniments from the Director of Agriculture is enclosed herewith for favour of perusal.

---

district, as approved by the District Village Improvement Association, in its meeting on 10-8-39.

---

1. Object. - The scheme has been started to further the object of Village Improvement scheme started by the Viceroy. The main object of the scheme is to produce pure Khilar breeding bulls and encourage their distribution in the Bijapur district.

2. Site and area:- Two hundred acres minor forest area of S.No. 225 of Yedhalli for grazing and 117 acres, 10 gunthas black soil of Galgali S. No. 215 by the side of the river Krishna, are taken over from the Forest Department for the purpose. The Deputy Director of Agriculture, S. D., Dharwar, and the Livestock Expert to the Govt. of Bombay, Poona, have approved of the site and area.

3. Cattle. - At least 40 good pure Khilar cows will be provided by four intelligent land-owners approved jointly by the Collector of Bijapur and the Deputy Director of Agriculture. The ~~antimals~~ animals will be approved by the Deputy Director of Agriculture or any one deputed by him and should be pure bred. In selecting land owners those will be given preference who have animals enough to keep up the requisite number of cattle, are rich enough to ~~keepxupxthexrequix~~ finance the experiment and have lands ~~sitexnumberxofxcattle~~ enough to provide an uninterrupted supply of good fodder to the animals selected as the land available may not do for all the animals and their progeny under serveillence. A good pure Khilar bull will be purchased from the funds of the Village Improvement Committee and given to the land-owners for service. After the bull provided ceased to be of service another will be selected out of the progeny or will be purchased out of the profits of the Farm or at the cost of landlords, whichever is feasible.

4. Distribution of the area. -- Out of the total black soil area of 117 acres, an area of about 100 acres will be divided into four equal strips and distributed among the cattle owners. Each strip will include a portion of about 1/4 the area along the bank of the river which will be protected and fodder crops like Wal and Shevari as directed by the Committee will be grown. A portion of about 1/4 the area which is liable to be flooded should be set apart for food and fodder crops and in the remaining half of the area which is not liable to be flooded

each year. Out of the total area of 200 acres in survey No. 225 of Yedhalli- forest land, attempts will be made to bring an area of about 32 acres under cultivation and Khariff crops like jowar, kulthi and other pulses will be grown with the help of the cattle owners and the remaining 168 acres will be left for grazing.

5. Buildings. - Four kucha sheds will be built for the cattle owners each of which will include a room for 10 cows, a room for 15 to 20 calves, a room for store and a room for a servant to live in. A fifth small shed will consist of an office room and accommodation for the Manager to stay. The repairs to the cattle shed etc. will be carried out of the profits of the Farm.

6. Funds and Budget estimates. - An amount of Rs.8000/- has been sanctioned by the District Village Improvement Committee out of the Viceroy's fund. It is proposed to utilize it as under:-

Initial expenditure.		Amount.
1. Five kaccha sheds.	...	3000/-
2. Purchase of one premium bull.	...	300/-
3. Construction of tank or well for water supply, in the minor forest area.		500/-
Total	Rs.	3800/-

Running Expenditure.		
1. Pay of the Kamgar in Counter's grade of Rs.20-1-30.	Rs.	300/-
2. Alterations etc. to Kaccha shed.		60/-
3. Incidental expenses.		40/-
Total.	Rs.	400/-

After deducting the initial expenditure of Rs.3,800/- the remaining amount will be spent in the initial stages till the Farm is self-supporting.

7. General. - Each Cattle Owners should grow his own fodder and concentrated feeds and arrange to store them neatly as directed by the Manager. He will always have a minimum of 10 pure Khilar cows and 15 calves. He should sell the bull-calves when they are three years old for breeding purpose, preferably to those who are recommended by the Managing Committee.

The cow-calves should first replace the old cows and the extra ones sold out, preferably to the breeders. A set of conditions to be enforced on the cattle owners is drawn up and a copy is herewith enclosed.

The Farm will be managed by a Committee formed of the -

Collector as Ex-Officio President.

Deputy Director as Ex-Officio Vice-President.

Mahalkari as Ex-Officio Secretary.

and one member selected out of themselves by those who join the scheme.

The Committee will have power to:-

1. Select a Manager and other staff.

2. Select landlords or to remove those already selected.

3. To make financial arrangements for the efficient working of the Farm.

4. To frame rules for the guidance of the Cattle owners and t the efficient working of the Farm.

Rules relating to the management of the Cattle Farm at Yadhalli.

-...

(1) The person concerned should have or buy 10 pure Khilar cows approved by the Divisional Inspector of Cattle Breeding.

(2) He should keep these 10 cows and their progeny together with a servant to look after them in the shed constructed for the purpose.

(3) He should grow at his cost only the food and fodder crops in the area given to him which are approved by the Committee and should make adequate provision of fodder for 10 cows and 20 calves near his shed.

(4) He should attempt to catch silt in the areas given to him along the river and grow crops like Shevari and Wal etc. He should also try to catch silt in the hollows of the flooded areas by planting "Lakki" and should stop washings.

(5) He should feed the common bull by turn according to the programme fixed for the year by the Managing Committee.

(6) He should maintain records prescribed by the Committee and should make available for inspection of the District Agri. Overseer and the members of the Committee.

(7) He should sell bull-calves for breeding purpose and preference being given to those recommended by the Committee of Management. Out of the sales, 10 per cent. should go towards the Farm Fund and the rest appropriated by the owners.

(8) He should sell cow-calves after replacing the old ones condemned by the Deputy Director of Agriculture from time to time and by preference to those who are recommended by the Managing Committee. 10 per cent. of the price should be contributed to the Farm Fund.

(9) He should pay assessment fixed on the area cultivated.

(10). The cattle owners should recognize all orders of the Managing Committee relating to his relations with the Farm as final.

(11) The Managing Committee may require the cattle breeders to execute a bond for Rs.500/- with a surety for the like amount for the proper discharge of the agreement. In the event of any member not carrying out his part of agreement, that the land may be taken away from him. He may be allowed to remove his livestock and implements.

(12) To give an opportunity to as many cultivators as possible to take advantage of the scheme each cultivator will be continued for a period of twentyfive years in the beginning after which he may be removed or continued for a shorter period of five years at a time as decided by the Committee.

(13) During the continuance of the periods mentioned in clause 12, the Committee will not remove him except for negligence to cattle, breach of conditions of the agreement or persistent evasion of instruction issued in this behalf by the Managing Committee.

(14). The cattle owner will be responsible for all wanton damage caused by him or his servant.

Sd. M. S. Moulvi,

Collector and President,
Bijapur, 10/8/39. District Village Improvement Assn.,
Bijapur.

Copy of letter, No. S. 68, dated 28th April 1939, from the Director of Agriculture, B.P., Poona, to the Commissioner, S.D.

.....

"I have the honour to refer to my endorsement, No. S.68/2372 of 1939, dated 6th March 1939, addressed to you below letter, No. V.L. T./1, dated 29th Jany. 1939, from the Collector of Bijapur and Village Improvement Association President, Bijapur, and its accompaniments on the above- noted subject, and to forward herewith a copy of letter, No. C/310, dated 18-4-39, from the Livestock Expert to Govt. on the present position of the Modak Cattle Breeding Farm, Yedanalli, Bijapur district.

(2). From the Livestock Expert's report, it appears that this scheme, which has considerable potentialities for successful and useful working, has been hanging fire for considerable period owing to the land having not yet been handed over to the cultivators who had agreed to co-operate in the project. Moreover, the technical advice of the Livestock Expert to Govt. does not appear to have been availed of when the existing buildings on the farm were constructed with the result that unsuitable types of cattle sheds have been erected. Only five cows have been purchased under the scheme although provision was originally made for 40 cows to be maintained to four selected land-owners. The new terms, suggested by the Collector of Bijapur (copy attached to the Livestock Expert to Govt.'s letter) do not appear to be acceptable in toto to the land-owners who are to co-operate in the working of the scheme and I am in agreement with the views expressed by the Livestock Expert in para.3 of his report, dealing with this matter. Similarly, the land-owners appear to object to paras 11 and 12 of the new terms and wish a clearer exposition of para 14. It would appear necessary

necessary that a meeting of the co-operating land-owners be held by the promoters of the scheme in order to arrive at terms which will be mutually acceptable.

(3) I have the honour to state that I feel strongly that this scheme was started prematurely i.e., before all the necessary ground work e.g., drafting of suitable terms, for the co-operation of the land-owners, had been carried out and that this precipitate action has resulted in the present state of affairs. In this connection, I may mention that I sent a telegram to the Collector of Bijapur on the 13th October 1937, as under:-

"Reference proposed cattle-breeding scheme at Galgali Farm, consider that scheme requires much more consideration before action towards starting is taken." Bomagri,

to which the following reply was received:-

"After full consideration and expert advice and constant guidance of Deputy Director Salimath, Wilson Anti-Famine Institute Farm starts sixteenth.

Collector (Bijapur)."

(4) In the past, livestock work in the districts financed from Village Improvement funds etc. has not been dealt with as a matter of course by the Livestock Expert to Govt., although his advice and help in technical matters has always been available, if asked for. In view of the recent orders of Govt. re: the reorganization of the work of the Agricultural Department in the districts, I have approached Govt. for the centralization of all livestock improvement work in the Province under the Livestock Section of the Agricultural Department and I trust that such a proposal will receive your support if referred to you for opinion. In the meantime, I will be glad to give all possible technical assistance and advice to enable the scheme dealt in this letter to progress on proper lines and will be glad to know what further action you desire me to take in this connection."

.....

Accompt. 2.

Copy of letter, No. C/310, dated 18-4-39, from the Live-Stock Expert to Govt. of Bombay, Poona, to the Director of Agriculture, B.P., Poona.

...

"With reference to your letter, No. S.68/2372, dated 6-3-39, on the above subject, I have the honour to state that I visited Yadhalli village on the 14th April 1939. The Deputy Director of Agriculture was unable to accompany me as he was engaged with the Director of Agriculture.

I met the following four farmers who were promised land and had agreed to run this project:-

(1) Mr. R. M. Desai of Yadhalli.
(2) Mr. Mallangouda Patil of Galgali.
(3) Mr. Lilchand Dipchand Gujjar of Yadhalli.
(4) Mr. Ramppa Venkatappa Biradar Patil of Yadhalli.

2. Nothing has been done to bring this into effect. The land has not been handed over to four farmers. The so-called Modak Farm was opened on 16-10-37. At this time one shed consisting of two rooms for cattle, one store room and one attendant's room were erected. This building to my mind is totally unsuited for keeping breeding stock. It is totally enclosed like a house intended for human habitation with katcha floor and central platform as mangers. For the cattle all that is needed is a lean to shed with well-rammed murram floor. The present structure with mud floor is a positive danger, no sun can get at the floor to dry it. It

the cattle with one store room at one end and a servant's room at the other end. Five cows and one bull were purchased at the same time. Two cows that came in calf have calved once. The other cows and these two cows that calved about a year or more ago are not even in calf to-day.

The cows at present are in excellent condition, but the bull which I could not see I am told is in very poor condition and has not served since it was purchased.

The shed and the livestock were constructed and purchased from V.I.C. funds. The shed has never been used and is even not completed, windows and doors have yet to be fitted and the inner walls to be plastered. The cows were given into the keeping of Mr. Mallangouda Patil. He is now demanding feeding charges at the rate of Rs.25 per month for the five cows and Rs. 7 per month for the bull with the pay of one servant at the rate of Rs.6 a month and a boy at Rs. 4 a month. I cannot understand why this opening ceremony was hurried up, this shed erected and the cows purchased when nothing had been done to hand over the land. There is certainly some neglect on the part of some person. Mr. Patil who is now and has been looking after the cattle has a just claim for maintaining the cattle.

3. I read out the new terms laid down by Mr. Kothawala to the four farmers and they deny ever having been shown these terms. They object to paying 20 per cent. income from cattle as laid down in paras 7 and 8. I agree with their objection, draught cattle breeding is not a paying proposition and no breeder would consent to such terms. They are however willing to pay 10 per cent. of the income into a fund to be managed by the Managing Committee. This money to be utilized for land improvement, purchase of breeding bulls or for loaning to members in time of need.

They object to para. 11 - the giving of a security bond of Rs.500/-. They are agreeable to signing a contract which will be binding on both sides. In the event of any member not carrying out his part of the agreement that the land be taken away from him. He may be allowed to remove only his livestock and implements. They also do not agree to para. 12, their contention being that, if they are not given the land on long lease then they cannot afford to sink any of their money in the project. I agree with their point of view. They also suggest the removal of words "mentioned in clause 12" in para 13 be deleted as they do not agree with para. 12 as a whole.

They would like further explanation of para. 14. I could not explain this, as I do not know what it refers to. I enclose copy of the above terms for ready reference.

4. The four farmers are willing to go ahead with the scheme the minute the land is handed over to them. They ask that the V.I.C. build the three remaining sheds and give advance to Messrs. R.V.Patil, and Mallangouda Patil to enable them to purchase cattle, the other two members do not require financial assistance. I would suggest that the V.I.C. erect a silo pit (circular) 12 ft. in diameter and 10 ft. deep for each member at a cost of about Rs.250 each.

5. The whole scheme is a good idea. It is a demonstration on mixed farming with draught cattle. It will be demonstration of how hilly forest land can be utilized to best advantage in combination with agricultural land. The Kamgar in charge should be made to keep detail accounts of each farmer. I recommend that the scheme be proceeded with as quickly as possible as funds have been allotted. The land is ready for occupation and there now only remains orders to be issued, agreement taken, this should not take long.

I recommend that enquiries be made as to why the shed was erected and the cattle purchased when nothing was done about the land. A new bull at a cost of Rs.250/- will have to be provided."

Rules relating to the management of the cattle farm at Yedahalli.

...

1. The persons concerned should have or buy 10 pure Khillar cows approved by the Divisional Inspector of Cattle Breeding.

2. He should keep these 10 cows and their progeny together with a servant to look after them in the shed constructed for the purpose.

3. He should grow at his cost only the food and fodder crops in the area given to him which are approved by Committee and should make adequate provision of fodder for 10 cows and 20 calves, near the shed.

4. He should attempt to catch silt in the areas given to him along the river and grow crops like shevri and wal etc. He should also try to catch silt in the hollows of the flooded area by planting lakki and should stop washings.

5. He should feed the common bull by turn according to the progress programme fixed for the year by the Managing Committee.

6. He should maintain records prescribed by the Committee and should make available for inspection to the District Agricultural Overseer and the members of the Committee.

7. He should sell bull calves for breeding purposes and preference being given to those recommended by the Committee of Management. Out of the sales, 20 per cent. should go towards the farm fund and the rest appropriated by the owners.

8. He should sell cow-calves after replacing the old ones condemned by the Deputy Director of Agriculture from time to time and by preference to those who are recommended by the Managing Committee. 20 per cent. of the price should be contributed to the farm fund.

9. He should pay assessment fixed on the area cultivated.

10. The cattle-ownershould recognise all orders of the Managing Committee relating to his relation with the farm as final.

11. The Managing Committee may require the cattle breeders to execute a bond for Rs.500/- with a surety for the like amount for the proper discharge of the agreement.

12. To give an opportunity to as many cultivators as possible to take advantage of the scheme each cultivator will be continued for a period of fifteen years in the beginning after which he may be removed or continued for a shorter period of five years at a time as decided by the Committee.

13. During the continuance of the periods mentioned in clause 12 the Committee will not remove him except for negligence to cattle breach of conditions of the agreement or persistent evasion of instructions issued in this behalf by the Managing Committee.

14. The cattle owners will be responsible for all wanton damage caused by him or his servant.

15. If the cattle owner leaves the farm prior to the termination of the period fixed he will be responsible for the payment of all expenses incurred specially for him.

9-7-38. T.T.Kothawala,Collrof Bijapur

Revenue Department.

These papers contain a scheme for the establishment of a cattle breeding farm at Yadhalli in the Bijapur distt. to be financed from the Village Improvement grants. The capital investment over the scheme is estimated at Rs.3,900 and the working expenditure at Rs.400 p.a. Attention is invited to the remarks of the Dir. of Agre. in paras. (2) and (4) of his letter, No.S.68, dated 28-4-39. In order to ensure that the scheme is developed on proper lines, the Dir. of Agre. may in the first instance be requested to suggest what conditions should be imposed by Govt. for a successful working of the scheme. The Dir. may be requested to submit his report through the Commr., S.D.

26. MAR. 1940
Serial No. H 10180

The Commissioner, Southern Division,

Belgaum.

The Secretary to Government,

Revenue Department, Bombay.

Sir,

I have the honour to enclose a copy of letter No. V.L.T. 1 & 2 dated 5-3-1940 from the Collector and Chairman, District Rural Development Board, Bijapur, and to state that Rs. 3700/- for the scheme of the cattle-breeding farm at Yedhalli and Rs. 1000/- for the scheme for poultry breeding, were included in the allotment of Rs. 17,750 made to the Bijapur district for the current year from the Government of India grant.

2 By Government Memorandum, No.3591-H/33 of 2-3-40 the cattle-breeding scheme has been referred to the Director of Agriculture for remarks through me and I am awaiting them.

3 According to Government orders, the Model Poultry Farm, if approved by the District Rural Development Board, is to be located at the place where the Rural workers Trainin Centre for Bijapur district is established. The Director, Rural Development has in his letter No.A.D.M.(Rul)/12, dated 27-12-39 represented to Government that the Bijapur district Rural Development Board may be permitted to establish its poultry centre at Telgi as it will be some time before the rural workers' training centre is started. The orders of Government on this proposal have not been received here.

4. As, however, the Collector has already incurred

incurred an expenditure of Rs. 900/- and Rs. 400/- on the cattle-breeding farm and the poultry schemes respectively Government may be moved to approve it.

Your most obedient servant,

Commissioner, S.D.

Very Urgent.

Letter No.V.L.T. 1 & 2, dated 5th March 1940, from the Collector & Chairman, Dist. Rural Development Board, Bijapur, to the Commissioner, S.D.

"With reference to your No.V.L.T.-42, Coop. , dated 29th ultimo, I have the honour to state that Government has been moved by the Registrar, C.S., and Director, Rural Development, B.P., Poona, in his letter No.ADM(Rul)/12, dated 20th ultimo to sanction the scheme of cattle-breeding farm at Yedhalli (Pl. vide copy of letter quoted above, sent to you by the Registrar & Director, under the same number of even date). It is hoped that Government may accord its approval to the scheme early and it may be brought into full swing during the next year.

2. I further state that the old Dist. Village Improvement Association has sanctioned a sum of Rs. 550/- as feeding charges of the animals that are on the farm and given in charge of Mr. Mallangouda Patil, one of the proposed four breeders of the farm, for the period commencing from the time they were given in his charge upto the end of July 1939. In addition to this, feeding charges from August 1939 onwards are due to be paid to him. I further invite reference to para 2 of this office letter No.V.L.T.-1, dated 30th May 1939, wherein it is stated that about 100 acres in S.No.117 acres and 10 gunthas have been leased out for Rs. 1450/- for one year to the proposed four breeders, with a view that the land should not remain idle and the proceeds thereform may be useful for the object undertaken and also to defray the cost of maintenance of the animals and state that the said lease amount is due from them at the end of April next. Now, the Board is required to pay the feeding charges due to Mr. Mallangouda. The lease amount of Rs. 1450/- will have to be credited as receipt to Government of India grant. Under the circumstances, sanction may kindly be given to reappro-

charges out of the unspent balance from Government of India grant allotted to this district.

3. I have the honour to state Government have approved the poultry scheme submitted to you under this office letter No.V.L.T.-2, dated 19th June 1939, in their Memo. No. 3591-H/33, dated 19th August 1939. But, the allotment of Rs. 17750/- from Government of India grant is stated to have been made by you out of the Government authorized lump expenditure of Rs. 29235/- for three years. (Pl. vide your office memo. No. V.L.T., dated 3-10-39). But, this amount of Rs. 29235/- does not include the expenditure on poultry scheme etc. As the provision of Rs. 1000/- in the budget estimates of Rs. 17750/- for the current year, for poultry scheme, was made prior to the sanction of the triennial programme, necessary amount of expenditure that may be incurred during the current year for the poultry scheme is required to be reappropriated from the unspent balance out of the allotment of Rs. 17750/-. Hence, sanction for reappropriation of Rs. 400/- may kindly be accorded."

Para. 2 of the Commr's letter.

Receipt of the report called for from the Dir. of Agre. in G.M.,No.3591-H/39, dated 2nd March 1940, may be awaited.

2. Para. 3 of the Commr's letter.

Please see the decision in the linked case (file No.3591/33-4222) regarding establishment of a poultry farm at Telgi.

3. Para. 4 of the Commr's letter.

The expenditure of Rs.900 and Rs.400 on the cattle-breeding farm and the poultry schemes, respectively, incurred by the Collr. of Bijapur may be authorised.

4. F.D. may see u.o.

THE DIRECTOR OF AGRICULTURE,
BOMBAY PROVINCE,
POONA:

TO

The Secretary to Government,
Revenue Department, Bombay.

POONA, DATED 5th May 1940.

SUBJECT:—Cattle Breeding Farm.
Yadhalli, peta Bilgi, district Bijapur.
Scheme proposed by Bijapur District Rural Development Board.

SIR,

I have the honour to refer to your Memorandum No. 3591-H/33, Revenue Department, dated 2nd March, 1940, on the above-noted subject and, in consultation with the Livestock Expert to Government, to state that, in general the Scheme is on the lines originally suggested by the Livestock Expert to Government and communicated by me to the Commissioner under my letter No.S.68, dated 28th April, 1939.

There are a few points, however, in the Scheme, as now drafted, upon which I desire to offer some remarks as under:-

(a) I do not understand what is meant by the statement under para 7 of the Scheme indicat-
that the Farm will be managed by a
ttee, the personnel of which is also
sted. Under the scheme there will be
tenants each managing one-fourth of the
and selected for their suitability for
l husbandry and livestock breeding.
I am of the personal opinion that, in
dance with Government's decision to
alize all livestock work in the
icts under the Livestock Expert to
ıment, the supervision of the Joint

Livestock Expert to Government who should submit an annual report on the work and progress made to the Collector of the District. I can see no necessity or utility in a Committee such as is suggested in para 7 of the Scheme.

(b) In paras 3 and 5 of the Scheme, certain items of expenditure are proposed to be met from "profits of the Farm" and in Rule 7 attached to the Scheme, a reference is made to the"Farm Fund". I consider that the value of the scheme largely exists in its utility as a centre for research work on "mixed farming" and that it should not be regarded as merely a method of producing a few breeding bulls per year. Any young bulls capable of being utilised as breeding bulls should be sold in addition to unprofitable and undesirable female stock and there is not much prospect of any appreciable financial profits for several years at least. If such profits are made, they should at once go into the general improvement of the Farms.

(c) The planning of the cropping scheme should be carried out with the "mixed farming" idea in prominence, and the tenants should be required to agree that they will abide by the instructions of the supervising authority in laying out their cropping scheme. Permission of the same authority must be obtained to the disposal of all livestock. Some of the more nutritious leguminous rodder crops e.g. berseem, lucerne etc: should be grown in addition to the better yielding grasses of high nutritive value. Special arrangements must be made for the conservation of manure, both liquids and solids and its restoration to the cultivated lands. A small area on each holding might be devoted to the lay-out of a small orchard and permanent fodder crops could be cultivated between the orchard trees.

(j) It is essential that, from the beginning of the Scheme, simple but adequate farm accounts should be maintained on all the four holdings in order to enable an estimate to be made from time to time of the additional profits accruing to the tenants from the introduction of the "mixed farming" system of cultivation. At a later stage, other livestock e.g. sheep and poultry could be introduced.

In conculsion, I have the honour to state that it would be unwise to regard this experiment as merely one for the production of livestock or mainly as a source of production of young Khillar bulls. The situation proposed and the type of land selected is most suitable for research work in the technique and economics of "mixed farming" i.e. a combination of livestock farming with the ordinary cropping systems of both food and cash crops in the district concerned and this object should be the primary one to be kept in mind in the development of the Scheme. The main endeavour should be to demonstrate how by judicious management and suitable cropping, the land can be made to produce more food and money crops while, at the same time, increasing its livestock keeping capacity. The Manager selected must therefore be a practical agriculturist as well as a man experienced in cattle breeding and animal husbandry and must be prepared to maintain detailed accounts of the work done on the holdings and full estimates of costings etc.

I have the honour to be,
Sir,
Your most obedient servant,

Director of Agriculture.

Through

The Commissioner, S.D.,Belgaum.

Below letter S.68/5338, dated 5th May 1940 from the Director of Agriculture, Bombay Province, Poona.

6057/39

REVENUE DEPARTMENT
File No. 3591/38
25. MAY 1940
Serial No. H 18287

No. V.L.T.-76.

Office of the Commissioner, S.D.

Belgaum, 22nd May 1940.

S u b m i t t e d.

2. A committee such as that which the Collector proposes is necessary if the Bijapur Rural Development Association is to hold the land and provide the funds. The committee should not however exercise the expert function of management as proposed in the Collector's order. This should be the function of the Livestock Expert. If however there is to be no committee and the Farm is to be supervised entirely by the Livestock Expert as the Director of Agriculture propose the Farm must be run as a direct government concern without the intervention of the Collector or the Rural Development Association and its cost must be provided in the budget. Such departmental management seems preferable to management by the Association because breeding is an extremely expert business and the Association has already gone a good way to demonstrate its incapacity to run the Farm properly.

3. The Commissioner agrees with the Director's proposals for the fuller use of these Farms. The scheme would be a very expensive one if its sole product was to be a few Khillari breeding bulls. If these proposals are sanctioned the rules will require amendment. The rules will in any case require amendments to meet the objections pointed out by the Livestock Expert in his C/310, dated 18th April 1939.

4. So far as the papers submitted and the records of this office show Government has not approved and has not been asked to approve the utilisation for this Farm of the Govern-ment land on which it is proposed to locate it. This grant

of land is the basis on which the scheme rests. The land consists of -

Yadhalli	S.No. 225A	Scrub jungle	200 acres.
Galgali	S.No. 215	Kuran	117-10 "

and its value can be judged from the fact that 100 acres of S.No. 215 of Galgali, probably the best, was leased out for Rs 1,450 from 1st July 1939 to 30th June 1940. No adequate consideration seems to have been given to the question whether the scheme is worth its high cost. If it is managed departmentally the land will continue the property of Government and the cost will be the rental value of the land plus the running expenses. Some sort of balance sheet should be drawn up showing the cost of the scheme and the value of the benefits accruing from it. It may then be considered whether there is not some cheaper and equally efficient means of providing these benefits.

5. The Commissioner is inclined to think that the rental of the 100 acres from 1939-40 amounting to Rs 1,450 should be credited to Government but is obtaining the Collector's views on this. If Government approves, the Collector will be asked to lease the land out again for 1940-41; otherwise it will apparently merely lie waste.

Revenue Department. Commissioner, S.D.

H.

p.13

Submitted with reference to the office note dated 27-2-40.

2. Briefly stated, the history of this case is that a Cattle Breeding Farm was opened by the Collr. of Bijapur (Mr.D.S. Modak) in Octr.1937 at Yadhalli, distt. Bijapur. The scheme was approved by the Dist. Village Improvement Association and the following expenditure has so far been incurred thereon:-

	Rs. A. P.
Construction of a shed.	771--8--6
Purchase of 5 cows.	329--2--0
Purchase of one Khilari breeding bull.	180--0--0
Miscellaneous charges.	52--4--0
Maintenance charges of the cattle in the farm.	900--0--0
	2,232-14--6

x p.23.

3. The area selected for the farm is by the side of river Krishna and has been approved both by the Live Stock Expert to Govt. and the Dy.Dir. of Agril. The site consists of two s.Nos. viz., 225 of Yadahalli and 215 of Galgali and measures 225 acres of minor forest area and 117 acres of black soil, respectively. The latter s.No. seems to be valuable as 100 acres thereof have been leased for Rs.1,450 for a year to one of the four proposed breeders. The details of the scheme and the rules relating to the management of the farm, approved by the Dist.Village Improvement Association (R.D.Board?). on 10-8-39, will be found at p.5 to 8 ante. The capital investment for the scheme amounts to Rs.3,800 and the running ex-

...p.a. This does not take into account the value of the lands. The Commr. considers that the farm should be run as a Govt. concern, as proposed by the Dir. of Agre., under the supervision of the Live Stock Expert as the Rural Dev. Assn., Bijapur, has already gone a good way to demonstrate its incapacity to run it properly. This view may be accepted.

4. As observed by the Commr. the question whether the scheme is worth its high cost has not been considered. The Live Stock Expert and the Dir. of Agril. consider it a good idea and the Collr. considers it worthy of being tried. If the scheme is run by Govt. the lands will remain the property of Govt. and the question of their grant will not arise. The cost would be:-

Non-recurring.	Rs.	
Capital investment.	3,800	
Recurring (annual).		
Running expenses.	400	
Rental value of the land.	1,450	for 100 acres of S.No.215 of Galgali.
	1,850	plus the rental value of the other area viz. 17 acres of kuran and 200 acres of the forest land at Yadhalli.

5. The Dir. of R.D. may be requested u.o. to consider all the aspects of the case, in consultation with the Dir. of Agre., and to state whether the scheme is worth its high cost and if so to submit for the approval of Govt. revised rules for the management of the farm. He may also be requested to report on the possibility of providing the benefits accruing from the Bodak Cattle

Farm by some cheaper but equally efficient means.

6. The Commr's proposal to ask the Collr to lease the land out again from 1st July 1940 to 30th June 1941 may be approved.

A draft memo. is put up.

BN 6.6.40.

MS 7.6.40.

O.S.D.

Secy.

NRK6/6

This seems a very good effort at how not to do it. It is quite clear that to run an experiment in mixed farming, it would be useless to hand it over to the Rural Development Department or the Wilson Anti Famine Institute for technical care, and that it would be waste of public funds to give out this land either permanently or temporarily for raising cattle unless the breeding is done under proper supervision and as an experiment in mixed farming.

2. The whole scheme seems most erratically conceived, and as suggested it needs careful reconstruction. Action may be taken as in para.5 of the office note and also para.6.

Agricultural Department

No.S/68/12864

Poona, 29 July, 1940

Returned with compliments.

The present position of the Cattle Breeding Farm, Yedahalli, was fully discussed at a meeting with the Registrar, Cooperative Societies and Director of Rural Development at which the Live--stock Expert to Government was present. In its present form, the scheme will never be success--ful and the Agricultural Department has always maintained that the work of cattle-breeding under the scheme should be combined with mixed farming in order (a) to make the breeding of purely draught breeds an economic proposition and (b) to obtain much needed information about the economics and technique of mixed farming in an area where there is considerable scope for the development of this type of agriculture. The site chosen is a good one for both the purposes mentioned above but it is not at all clear whether the arrangements made by the promoters of the Scheme will achieve the objects aimed at. As indicated by the Registrar Cooperative Societ--ies, there is considerable doubt as to whether the scheme is being carried out by cultivators actually resident on the area and, if so, whether their cooperation in the work has been secured. It is essential that the cultivators selected should be men with an interest in cattle-breed--ing and who are willing and keen to abide by and follow expert instruction in the breeding policy, cultivation of fodder crops etc. The

Director of Agriculture considers that a personal inspection of the area by himself and the Live-stock Expert is necessary before any further proposals can be submitted. Such inspection will have to await the end of the monsoon season as the land is inaccessible at this time. After such personal inspection, a final report will be made to Government.

Director of Agriculture

No.V.L.T:5.
Office of the Collector of Bijapur.
Via Bijapur, 10th April 1941.

Passed on with compliments to the Commissioner, S.D., Belgaum,

Collector of Bij

Province on Scheme proposed by Bijapur District Rural Development Board regarding Cattle Breeding Farm at Yedahalli.

---

(1) I visited the site of the so-called "Modak Cattle Breeding Farm, Yedahalli" on the 20th March, 1941, in company with the Deputy Director of Agriculture, Southern Division, and the Divisional Superintendent of Cattle Breeding, S.D. On my way to the Farm, I met the Collector of Bijapur (Mr,Moulvi) at Bilgi, and had a brief discussion with him regarding the scheme. At the site of the "Farm", I was met by Mr.S.T.Patil, M.L.A., Bijapur, representing the Wilson Anti-Famine Institute, Bijapur, and local cultivators interested in the scheme.

(2) With regard to the present position of the scheme, I have to state as under:-

(a) The original scheme was <u>not</u> a scheme for a Cattle Breeding Farm - which is a complete misnomer - but a scheme for subsidizing cattle breeding in the Yedahalli area by making free grants of land to four local cultivators on condition that they would each obtain and maintain a small herd of Khillari cows for breeding purposes. The Anti-Famine Institute, Bijapur, was to provide a breeding bull for use on the combined herds. In return, the cultivators co-opera--ting in the scheme were to observe certain conditions regard--ing fodder growing etc. to maintain breeding records and sell young stock for breeding purposes, preference in this respect, being given to buyers recommended by the Committee of the Anti-Famine Institute, Bijapur. 20% of the proceeds of such sales were to be allotted to a "Farm Fund".

(b) A grazing area of 200 acres and a kuran (cultivable area) of 117 acres have been obtained from the Forest Depart--ment for the purposes of the scheme. The kuran area has been disforested and has been leased out to cultivators as the scheme has not made any progress on the original lines contemplated.

(c) An entirely unsuitable cattle-shed has been

constructed on the grazing area at a cost of Rs.771/-. I could not find out who was responsible for its erection. It has now been seriously damaged by wind and may be written off as useless and a complete loss.

(d) The original stock purchased was five cows and one breeding bull. I consider that the bull shown to me - which may not be the one originally purchased - to be a poor specimen and unsuitable for breeding good off-spring. The cows are good and in fair condition. There are also some young stock born since 1937. The stock are at present being maintained by Mr.Mallangouda Patil who, I believe, is receiving maintenance charges for this work.

(e) There is considerable interest in cattle-keeping and breeding in the near-bye villages and the local cultivators are anxious and willing to cooperate in any suitable scheme for cattle improvement. This is, possibly, the main factor which is in favour of continuing such work in this area. As a site for a "Cattle Breeding Farm" in the generally accepted sense, the site is unsuitable and many more suitable places for such a Farm could be found in the district.

(3.) In general the original scheme has been inadequately and hastily prepared and expenditure incurred e.g. on the construction of the shed, which cannot be justified and which has obviously been undertaken without the expert advice and assistance of the Livestock Expert to Government being sought. In this connection, I would refer to the fact that I sent a telegram to the Collector of Bijapur(Mr.Modak) on the 13th October, 1937 stating that the scheme required more consideration before being commenced. This advice was ignored and the "Cattle Farm" was opened on the 16th October, 1937. Since that date, the scheme has been at a complete stand-still.

(4) With regard to the future, I have the under-noted remarks and suggestions to make:-

(a) The idea of establishing a "Cattle Breeding Farm" in the generally accepted sense of the term, at Yedahalli should be abandoned. The site is not suitable for such a purpose.

(b) Owing to the fact that there are local cultivators with adequate resources, who are interested in cattle breeding and willing to cooperate in any scheme for the improvement of cattle, I consider that a "combined cattle breeding and mixed farming project" be

established at Yedahalli on the areas originally acquired for the purposes of the farm. It is essential to combine cattle-breeding with some other work in this area as, if t object of the promoters of the original scheme, was to obt breeding stock at low prices for distribution in the distri it would at present be cheaper and easier for them to obtai such breeding stock from the areas where Khillari bulls are produced under the "Premium Bull Scheme" by the Livestock Expert to Government".

(c) The additional use for which the area can be utilised - in addition to cattle breeding - is as a demonstr -tion of how "mixed farming" i.e. the suitable combination o crop cultivation and animal husbandry can increase the production of the land and enable cultivators to (a) produce their own cattle and (b) increase their crop production, simultaneously.

(d) The kuran area i.e. cultivable area, should be divided into four blocks (about ~~50~~ 25 acres each) and allotted to the four local cultivators who are willing to cooperate in the scheme. These cultivators, I believe, own between them the bulk of the land between the grazing area and the deforest kuran and, for this reason, are suitable for working the scheme Other cultivators in the village would not be suitable. A definite cropping scheme for these four areas should be drawn up, in consultation with the Livestock Expert to Government, and adherence to this scheme should be insisted upon as a condition of the free grant of the areas. The grazing area of 200 acres should be put at the joint disposal of the four cooperating cultivators for the grazing of the cattle which they will have to maintain under the scheme(see below). No other cattle should be permitted to graze in this area.

(e) The four cultivators, who agree to cooperate in the scheme, should be required to purchase six khillar cows, each to begin with, approved by the Livestock Expert to Government. This number may be increased later as the areas for grazing and crop production are developed by

bod bull will be supplied by the Livestock Expert to Government on the emium Bull System" for use on the cows of the four herds. The peating cultivators will be required to maintain service and eding records. The cooperating cultivators must undertake to ntain their herds in good condition and to follow a breeding policy der the direction of the Livestock Expert to Government.

(f) On the grazing area, a Kutcha shed to give shelter to the rds from climatic conditions should be constructed with suitable mpounds or enclosures. Four smaller sheds, of a similar type, should e erected, one on each of the allotted portion of the kuran (culti- vable area) to be handed over to each cooperating cultivator. These heds need only be of a kutcha type of construction.

(g) The cooperating cultivators must undertake to stock a efinite quantity of hay and to prepare a definite amount of silage, as etermined by the Livestock Expert to Government, on the grazing area n order to supplement the grazing available there during the period hen the herds are stationed on the grazing areas i.e. during the monsoon months when the kuran (cultivable) area is inaccessible. During the non-monsoon months, the herds will be removed to the kuran (cultivable) area and maintained there when all the manure produced should be stored and applied to the cultivable lands.

(h) The cooperating cultivators must agree to maintain all young stock until fit for breeding when they can be disposed of only with the sanction of the Livestock Expert to Government, the nominees of the Anti-Famine Institute, Bijapur, being given preference as buyers. No financial contribution will be required from the cooperating cultivators as it must be clearly realized that, to begin with at least, their share in the work will not be productive for a number of years.

(i) The Anti-Famine Institute, Bijapur, may, if it is considered necessary, advance lands to any of the four cooperating cultivators for expenditure on the purchase of cattle, construction of sheds or any other purpose under the scheme under domditions which may be mutually decided upon.

(j) The general working of the scheme will be supervised by the staff of the Livestock Expert to Government. An Annual report will be submi on the scheme to the Collector of Bijapur for communication to the Anti

No. V.L.T.76.

Office of the Commissioner, S.D.

Belgaum, 15th May 1941.

Submitted.

There are three matters for consideration:

(1) the terms on which the land should be granted to the Anti-Famine Institute or to the mixed farmers if it is to be granted to either,

(2) the adjustment of accounts with the Institute for its past use of the land,

(3) the notice, if any, to be taken of the extraordinary manner in which the scheme has been launched by grant of ~~Govern~~ valuable Government land to the Institute without Government sanction and the hasty and ill-considered steps taken without the approval of the Director of Agriculture or the Live Stock Expert which have resulted in the loss of money spent on unsuitable buildings and in a waste of time in starting the scheme properly. Apparently the land is still Reserved Forest, but that has to be verified. P.S.

2. The third point is somewhat irrelevant but it is suggested that Mr.Modak may be asked to submit his explanation, or such unauthorised disposal of Government land may recur.

3. On the second point, the Institute and the Rural Development Association which it succeeds have held the land for several years and leased it out at a profit. On the land being disposed of the Insti

submit a statement of the expenses which it has incurred on the scheme and the realisations from the land during the interim period since 7th October 1937 that it held possession of the land with a view to Government deciding what if any of the mesne profits should be refunded to Government.

4. On the first point there appears to be no public objection to the loss of the kuran and grazing ground because the land has been occupied on behalf of the Institute for a long time without any public objection being voiced. There was much correspondence between the Collector and the Divisional Forest Officer before the land was handed over for the scheme; how the process of disforestation stands is being ascertained. p.59

5. There is a strong feeling in favour of the scheme both locally and among the members of the Anti-Famine Institute. It seems an extremely valuable scheme.

✓ 6. The terms suggested by the Director for the disposal ~~of the land may be generally~~ approved. The best manner of implementing this would seem to be to draw up separate 15-year leases for each of the 50 acre plots of kuran land to be entered into by each of the four cultivators and a joint lease for 15 ~~25~~ years of the 200 acres of the scrub jungle. But the exact terms of the lease will be submitted for approval after they have been agreed to by the Director and approved by the intending lessees. p.62

The Anti-Famine Institute will have no direct concern with the scheme.

The Commissioner, S.D., Belgaum.

Sir,

I have the honour to invite reference to the correspondence ending with your No.V.L.T.76, dated the 17th June 1940 forwarding a copy of Government memorandum, No.3591-H/33-18287, dated 11th June 1940, R.D., and to state that an area of 100 acres out of S.No. 215 of Galgali was leased out for the previous two years 1939-40 and 1940-41. Now, I request you to kindly inform whether the said area should be leased out again for the year 1941-42 for cultivation. If the scheme submitted to Government by you under your No.V.L.T.76, dated 15-5-1941 may take some time before it is put into operation, it is desirable to lease out the land for the current year as well.

2. Early orders are solicited.

Your most obedient servant,

Submitted in continuation of this office V.L.T.76, dated 15th May 1941.

Revenue Department. for Commissioner, S.D.

H.

Submitted with reference to A(F)'s note dated 3-4-41.

2. A cattle breeding farm by name "Modak Cattle Breeding Farm" was opened by Mr. D.S.Modak (then Collr. of Bijapur) on 16th Octr.1937 at Yadhalli,peta Bilgi, against the advice of the Dir. of Agre. who had telegraphed to the Collr. on 13-10-37 as follows:-

> "Reference proposed cattle breeding scheme at Galgali farm, consider that scheme requires much more consideration before action towards starting is taken".

The Collr. replied as under:-

> "After full consideration and expert advice and constant guidance by Dy. Dir.Salimath, Wilson Anti Famine Institute Farm starts sixteenth."

As the whole scheme was not on proper lines, the Regr. of C.S. and Dir. of R.D. was asked to reconstruct it in consultation with the Dir.of Agre. and submit a report through the Collr. of Bijapur and the Commr.,S.D. The Dir.of Agre., after visiting the village with the Livestock Expert to Govt., has submitted his proposals.

3. The scheme started by Mr. Modak has been at a complete standstill. The following expenditure was incurred on the scheme:

Construction of shed	- Rs.771--8--0	During 1937-38.
Purchase of 5 Khillari cows.	- Rs.329--2--0	
Breeding Bull.	- Rs.180--0--0	
Miscellaneous charges	Rs. 52--4--0	
Maintenance charges of the cattle up to March 1940.	Rs.900--0--0	
	Rs. 2, 232-14--0	

maintenance charges still to be paid to him is not known. Mr. Modak also granted valuable lands, mentioned in the margin* to the Wilson Anti Famine Institute without Govt. sanction. 100 acres of s.No.215 were leased out during the years 1939-40 and 1940-41. The Commr. has, in anticipation of the sanction of Govt., permitted the Collr. to lease out the area for 1941-42 also. His action may be confirmed. It is not clear whether the income derived from the land was credited to Govt. or to the Wilson Anti-Famine Institute presumably to the Institute.

*Yadhalli	S.No.		A. G.
	225-A	Scrub jungle.	200 -
Galgali.	215	Kuran.	117-10

4. The Dir's proposal that the idea of establishing a cattle breeding farm should be abandoned may be accepted. The shed constructed is reported to be useless and the bull unsuitable for breeding good offspring. The money spent so far on the scheme has been wasted. For these reasons, the Commr. suggests that Mr. Modak may be asked to submit his explanation for such unauthorised disposal of Govt. land. The explanation may be called for.

5. The terms suggested by the Dir. for the establishment of a "Combined cattle breeding and mixed farming project", recommended by the Commr., may be accepted; but the Wilson Anti Famine Institute, to which the functions of the R.D.Board of the Bijapur Dist. are assigned, should have no direct concern with the scheme. As regards the disposal of lands the Dir. suggests a free grant, ~~and~~ the Commr. considers that leases for 15

Presumably ~~This proposal~~

...accepted, and the Collr. may be asked to ascertain and report whether the terms are acceptable to the mixed farmers and to submit, through the Commr., a draft form of the lease to be executed by them. He may also be asked to obtain a statemen of receipts and expenditure from the Wilson Anti-Famine Institute, Bijapur, and submit it to Govt. The question whether the Institute should be asked to refund the profits to Govt. may be considered on receipt of this report.

6. The F.D. may see the papers u.o.

The RS has presumably referred the papers to this Deptt in connection with the proposals made in para 5 of its foregoing note. The general outline of the revised scheme proposed by the Dir. of Agrl. are given in

pages 51-54 of the papers. Before ... the Scheme can be examined in this behalf, the full financial effect of the proposals including the annual recurring and the non-recurring cost, with details thereof, will have to be worked out. The R.D. may be requested to do this in the first instance. It may be added that the proposals will have to be treated as a new item for 1942-43.

GMM
19.6.41

15.6.41

It seems to me that the Scheme apart from concession in rent does not involve any financial commitment by Govt. At any rate it has not been specifically stated that Govt. will have to advance loans to cultivators. If it is contemplated that Govt. should advance any loans, it will be necessary to examine the details of the proposal.

These details will be clear when definite proposals re. loan etc. are received. F. D. may reserve its comments until then details are received.

If, however, the only financial commitment is in respect of concession in rent, F. D. need not object to the R.D. proposal.

VL.

Memo. from the Commr.,S.D. No.V.L.T.-76, dated 15-5-41.

Resolution. - Govt. considers that the scheme for establishing a "Cattle Breeding Farm" at Yadahalli, peta Bilgi, dist. Bijapur, is defective and should be abandoned. The site comprising S.No.215 of Galgali and S.No.225-A of Yadahalli measuring ~~200 acres and~~ 117 acres and 10 gunthas and 200 acres respectively, selected for that farm should, however, be utilised for establishing a combined cattle breeding and mixed farming project. These lands should be leased to the cultivators mentioned in the margin* who have signified their assent to work the project under the guidance of the officers concerned on the following conditions:-

(i) the lands shall be utilized

*a. Mr.R.M.Desai of Yadahalli.
b. Mr.Mallangouda Patil of Galgali.
c. Mr. Lilachand Dipachand Gujjar of Yadahalli.
d. Mr.Ramappa Yenkateppa Biradar Patil of Yadahalli.

breeding and mixed farming project which shall be worked by the persons concerned in accordance with and to the satisfaction of the Collr. of Bijapur and the Dir. of Agre;

(ii) the cultivable area of about 100 acres in S.No.215 of Galgali shall be divided into four equal blocks, each block being given on a fifteen-year lease for cultivation to each of the four cultivators.

(iii) the lessees shall cultivate their respective blocks in accordance with a definite cropping scheme which shall be prepared and communicated to them by the Collr. of Bijapur in consultation with the Dir. of Agre. and the Live Stock Expert to Govt. They shall also maintain such records as the Collr. may ask them to maintain;

(iv) the whole of S.No.225-A of Yedahalli shall be given to the four cultivators in one block on a joint fifteen-year lease for grazing the cattle maintained for the purposes of the project. No other cattle shall be permitted to graze in the S.No. Grass grown in the S. No. shall not be sold by the lessees;

(v) to begin with, each of the four lessees shall purchase six khillar cows approved by the Live Stock Expert to Govt. The number of cows shall in future be increased by the lessees in accordance with the advice of the Live Stock Expert to Govt. who shall provide them with a bull on the "Premium

of the project;

(vi) the lessees shall arrange for the maintenance of the cattle and shall also follow a breeding policy in accordance with the directions of the Live Stock Expert to Govt. who shall also ask them to keep proper service and breeding records;

(vii) the lesees shall construct such sheds with such compounds and enclosures at such points both in the cultivable and the grazing lands as may be determined by the Live Stock Expert to Govt.

(viii) the lessees shall stock such quantity of hay and prepare such amount of silage in such manner, at such times and at such place or places as may be determined by the Live Stock Expert to Govt;

(ix) the lessees shall not utilize the manure produced in the lands for purposes other than those connected with the project;

(x) the lessees shall not claim any proprietary rights in trees they may grow in the lands nor shall they cut and remove the existing trees without the Collr. of Bijapur's previous sanction;

(xi) the lessees shall dispose of such cattle on the lands and in such manner as may be determined by the Live Stock Expert to Govt. In cases where it is decided to sell the young stock produced under the project, the nominees of the Wilson Anti Famine Institute, Bijapur, shall be preferred as buyers.

disposal of the cattle shall belong to the lessees;

(xii) the lessees shall allow inspection of the lands, the sheds and the cattle and also of the records maintained by them, by the officers of gazetted rank of the Agril, Veterinary and Rev. deptts. of the Govt. of B'bay.

(xiii) the lessees shall immediately report to the Mahalkari of Bilgi or to the Collr. of Bijapur the outbreak of disease among the cattle and shall also arrange for their treatment or removal or disposal according to the instructions received by them either from those officers or from the Vety. deptt.

(xiv) the lease may be terminated by Govt. in the event of the lessees failing to cooperate with Govt. in the improvement of cattle or on breach of any of the conditions stated above;

(xv) the whole of part of the lands may be resumed at any time by Govt. after paying to the lessees such compensation as may be determined by it, if the lands or a portion of them are required for a public purpose.

(xvi) no premium shall be charged for the leases but the lessees shall pay rent equal to the land rev. assessment at the current or revised rates fixed in respect of the lands. No n.a. assessment shall be levied in respect of authorised n.a. uses of the lands.

2. The Collr. of Bijapur should be requested to obtain from the Dir. of Agre. an annual report on the general working and progress of the scheme and submit

It to Govt. through the Commr.,S.D. & A copy of the report should also be forwarded to the Wilson Anti Famine Institute Bijapur.

D.O.No.6057-H/39.

Revenue Department.
Council Hall.
Poona, 15th July 1941.

Reference paragraph 2 of your memorandum, No.V.L.T.76, dated 15th May 1941, regarding the so-called cattle breeding farm in Yadahalli, peta Bilgi, district Bijapur.

2. I am to state that Government accepts you suggestion that Mr. D.S. Modak may be asked to explain the extraordinary manner in which the scheme for establishing the cattle breeding farm was launched by him and valuable Government land was granted to the Institute without obtaining Government sanction. The hasty and ill-considered steps taken by him, without the approval of the Director of Agriculture or the Livestock Expert to Government, have resulted in the loss of money spent on unsuitable buildings and have led to unnecessary delay in getting the scheme properly started.

3. I am to request you to obtain Mr.Modak's explanation and to forward it to Government in due course, with your own remarks thereon.

Yours sincerely,

O/C

REVENUE DEPARTMENT
File No. 6057/39
13 SEP 1941
Serial No. H 22663

No. V.L.T.-76.

Belgaum, 11th September 1941.

From

The Commissioner
Southern Division Belgaum.

To

The Secretary to Government,
Revenue Department Bombay.

Sir,

With reference to paragraph 1 of Government Memorandum Revenue Department 6057-H/39 dated 9th July 194 on the above mentioned subject, I have the honour to forward a combined draft lease giving the exclusive right to a holding in the Galgali land and a joint holding with the other participants in the project in the Yadhalli scrub jungle. The Director of Agriculture has approved the draft lease and the four cultivators have agreed to the conditions specified therein.

Your most obedient servant,

Commissioner S.D.

Form of lease of land granted for the "combined cattle breeding and mixed farming project."

To

The Governor of Bombay.

This is to certify that

of

(hereinafter called "the lessee") has subject to the provisions of the Bombay Land Revenue Code, 1879, (Bom. V of 1879), and the rules made thereunder, and subject to the conditions hereinafter specified, been allowed by the Governor of Bombay (hereinafter referred to as "Government") to occupy for the purposes of "The Combined Cattle Breeding and Mixed Farming Project" for a period of 15 years, commencing from day of 194 (hereinafter called "the said term") the following two plots of land, plot A exclusively and plot B jointly with the other participants in the project :-

Plot A.- The plot of land situated in the village of Galgali, petha Bilgi, district Bijapur, bounded on the

North by on the

South by on the

West by on the ,

East by

bearing survey No. and measuring about 25 acres and of the following shap

of the following dimensions :-

Plot B.- The plot of land situated in the village of Yadhalli, petha Bilgi, district Bijapur, bounded on the

North by on the

South by on the

West by on the

East by

bearing Survey No. and measuring about 200 acres and of the following shape and of the following dimensions :-

(as shown in the maps hereto annexed).

Conditions applying to both plots.

(1) The lessee shall not claim any right to the trees now existing or growing hereafter in the said area, shall maintain all of them in good condition and not cause any loss, damage or injury to them.

(2) The land shall be handed over back by the lessee on the date of expiry of the term of the lease in good condition.

(3) The lessee shall within three months of his assuming possession of the land obtain at his own cost not less than six Khillari cows approved by the Livestock Expert to Government and shall make every attempt to increase their number.

(4) A Khillari Bull will be supplied by the Livestock Expert to Government, Bombay Province, Poona, on Premium Bull System i.e. either at 1/2 cost and no maintenance or if

the lessees pay full cost of the bull, with maintenance at Rs 7 p.m."

(5) The lessee shall maintain the cows and their progeny in good condition and follow the instructions of the Livestock Expert to Government in regard to his breeding policy.

(6) The lessee shall stock such quantity of hay and prepare such amount of silage as is determined by the Livestock Expert to Government on the grazing area in order to supplement the grazing available there. During the non-monsoon months when the 'Kuran' area is accessible, the herds shall be removed to the block (kuran) and maintained there and the manure shall be stored and applied to the cultivable area in the block.

(7) The lessee shall maintain all the young stock until fit for breeding when it may be disposed of only with the sanction of the Livestock Expert; the nominees of the W.A.F. Institute, Bijapur, being given preference as buyers.

(8) The lessee shall see that the Khillari cows and their female progeny are served by only by the bull supplied by the Livestock Expert.

(9) The lessee shall undertake to maintain service and breeding records.

(10) The lessee shall execute a bond for Rs 500 or the like amount that may be fixed with a surety for the like amount for the proper observance of the terms of the lease

and in the event of his not observing the terms of the lease the amount of the bond ~~is~~ or such part of it as the Collector may determine shall be liable to be forfeited to Government and land may be resumed from his possession at any time.

(11) The lessees shall allow inspection of the lands, the sheds and the cattle and also of the records maintained by them, by the officers of gazetted rank of the Agricultural, Veterinary and Revenue departments of the Government of Bombay.

(12) The lessees shall immediately report to the Mahalkari of Bilgi or to the Collector of Bijapur and the outbreak of disease among the cattle and shall also arrange for their treatment or removal or disposal according to the instructions received by ~~them~~ him either from those officers or from the Veterinary department.

Conditions governing plot A.

(1) The lessee shall pay rent equal to the assessment on the land on the dates fixed for the payment of Land Revenue in the village.

(2) The lessee shall carry out the cropping scheme for the area drawn up by the Director of Agriculture.

(3) The lessee shall attempt to catch silt in the area given to him along the river and also in the hollows of the flooded area by planting 'Lakki' and thus stop washings by the floods of the river.

(4) The lessee shall construct on the land at his own expense a kachha shed (with a suitable compound or enclosure) of the type approved by the Livestock Expert on the site selected for the purpose to afford shelter to the cows and their progeny.

Conditions governing plot B.

(1) The said area shall be used for grazing the Khillari cows and the breeding bull maintained in accordance with the said project and for none else.

(2) The lessee shall pay his proportionate share of the rent fixed for the land which shall be equal to the assessment and shall be paid on the date on which assessment is payable in the village.

(3) The lessee shall construct on the land at his own expense a kachha shed (with a suitable compound or enclosure) of the type approved by the Livestock Expert on the said grazing area to afford shelter to the herd.

(4) The lessee shall immediately resign his rights under the lease as soon as he ceases to hold the land leased to him at Galgali in connection with the said project.

(5) The lessee shall not interfere with the use of the land by the other participants in the project.

In this lease the words "lessee" shall include the lessee, his heirs, successors, legal representatives and permitted assignees

Having agreed to the conditions of the

lease mentioned above the lessee has affixed ~~their~~ his signatures below.

This combined lease is executed on behalf of the Governor of Bombay by and under the hand and seal of the Collector of Bijapur district this day of one thousand nine hundred and forty-

Signed.-

Seal.

Collector of Bijapur.

Submitted with reference to the proceedings underlying G.M.No.6057-H/39, date 9-7-41, With reference to the first para. 1 of the memo., the Commr. has forwarded a combined draft lease giving the exclusiv right to a holding (25 acres to each of the four lessees) in the Galgali land and a joint holding with the other participant in the project in the Yadahalli scrub jung The draft lease has been approved by the Dir. of Agre. and the cultivators concerne have agreed to the conditions specified in the draft lease.

2. The conditions in the draft lease folllw those specified in the draft G.R. at pages 75 to 79 ante. Condition (xv) of the draft G.R. has, however, been omitted. The reason for this may be that the lands may not be required for a public purpose during the fifteen years for which period the lease will be operative. Govt. may accept the omission of the rule. The Commr. has also inserted some new conditions in the lease. These have been indicated in the appended draft of the lease and may be accepted. The appended G.R. may issue after u.o.r. to the R.L.A. who may be required to scrutinise the draft lease in the first instance.

Collector of Bijapur.

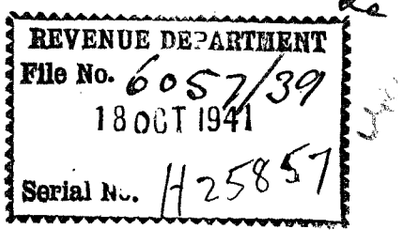
NRK22/9

Legal Department.

It is advisable to grant a joint lease for the grazing plot of about 200 acres and a separate lease to each of the four lessees for the cultivable plot of 25 acres each. Two draft leases are therefore appended herewith, subject to the following remarks :-

(a) It is presumed that the plot stated to be liable to be resumed by Government under clause (10) of the draft lease for a breach of any of the conditions of the lease is to be so resumed without payment of any compensation to the lessee. The clause has been amended accordingly.

(b) It is presumed that the rent payable in respect of two plots of land is yearly rent. Respective clauses regarding rent have been revised accordingly.



17/10

Solicitor to Government.

U.R. to R.D., No. 9087, dated the 18th October 1941.

Form of lease of land granted for the combined cattle breeding and mixed farming project" to be executed by the lessee separately. --------

To

This is to certify that M/s

of

(hereinafter called "the lessee") has, subject to the provisions of the Bombay Land Revenue Code, 1879 (Bom. V of 1879), and the rules made thereunder, and subject to the conditions hereinafter specified, been allowed by the Governor of Bombay (hereinafter referred to as "Government") to occupy for the purposes of "The Combined Cattle Breeding and Mixed Farming Project" for a period of 15 years, commencing from day of 194 (hereinafter called "the said term") a plot of land situated in the village of Galgali, petha Bilgi, district Bijapur, measuring about 25 acres and more particularly described in the schedule hereunder (hereinafter referred to as the said plot) ~~subject to the following terms and conditions~~ :-

(1) The lessee shall not claim any right to the trees now existing or growing hereafter in the said plot but shall maintain the trees in good condition and shall not cause any loss, damage or injury to them.

(2) The said plot shall be handed over back by the lessee to the Government on the date of expiry of the said term in the same good condition in which it was at the time of leasing the said plot, ordinary wear and tear ~~xxxxxxxxx~~ excepted.

(3) The lessee shall within three months of his taking possession of the said plot buy at his own expense not less than six Khillari cows approved by the Livestock Expert to Government, Bombay Province, (hereinafter referred to as the Livestock Expert ~~to Government~~) and shall make every attempt to increase their number.

(4) A Khillari Bull will be supplied by the Livestock Expert ~~to Government~~ on Premium Bull System i.e. either at 1/2 cost and no maintenance or if the lessee pays full cost of the bull, with maintenance at Rs. 7 p.m.

(5) The lessee shall maintain the cows and their progeny in good condition and follow the instructions of the Livestock Expert ~~to Government~~ in regard to his breeding policy.

(6) The lessee shall stock such quantity of hay and prepare such amount of silage as

is determined by the Livestock Expert to ~~Government~~ on the grazing area leased to him jointly along with other lessees by Government for the purpose under the project aforesaid, in order to supplement the grazing available there. During the ~~non~~-monsoon months when the "Kuran" area is accessible, the herds shall be removed to the area leased hereunder and shall be maintained there. The manure shall be stored on the said plot and applied to the cultivable area in the plot.

(7) The lessee shall maintain all the young stock until it is fit for breeding. Thereafter the lessee may dispose of the young stock with the sanction of the Livestock Expert ~~to Government~~, the first preference being always given to the nominees of the ~~W.A.F.~~ Wilson Anti famine Institute, Bijapur.

*~~Here insert full name of the Institute.~~

(8) The lessee shall ~~xx~~ see that the Khillari cows and their female progeny are served only by the bull supplied by the Livestock Expert ~~to Government~~ as here in~~xfxxx~~-before described. ~~xxxxxxxxxxxxxxxxxx~~

(9) The lessee shall maintain a proper record of the service and breeding in respect of his herd.

(10) The lessee shall execute a bond for (Rs. Rupees five hundred 500) ~~or such other amount as may be fixed by Government~~ and shall procure a surety for the like amount for the proper observance of the terms and conditions of this lease and in the event of his not observing

Substitute this Condition at 'A' 'A' on pages 139 & 141 pear for this Condition.

all
the terms and conditions of this lease the full amount of the bond or such part thereof as the Collector may determine shall be liable to be forfeited to the Governor of Bombay and shall the said plot of land be resumed by Government without any compensation.

(11) The lessee shall allow inspection of the said plot, the sheds constructed thereon and the cattle and also of the records maintained by him, by the officers of gazetted rank of the Agricultural, Veterinary and Revenue departments of the Government of Bombay.

(12) The lessee shall immediately make a report to the Mahalkari of Bilgi or to the Collector of Bijapur about the outbreak of any disease among the cattle and shall also arrange for their treatment or removal or disposal according to the instructions received by him either from the aforesaid officers or from the Veterinary Department of the Government of Bombay.

(13) The lessee shall pay in respect of the said plot a yearly rent equal to the amount of assessment payable for the land; such rent shall be paid on the dates fixed for the payment of Land Revenue in the village.

(14) The lessee shall carry out the cropping scheme drawn up from time to time by the Director of Agriculture, Bombay Province, in respect of the said plot.

⊗ Necessary : in this Lease "Govt." means "the Govt of Bombay"

(15) the lessee shall endeavour his utmost to catch silt in the area given to him along the river and also in the hallows of the flooded area by planting 'Lakki' and shall thus stop washings by the floods of the river.

(16) For the purposes of affording shelter to the cows and their progeny the lessee shall construct on the said plot at his own expense a kachha shed (with a suitable compound or enclosure) of the type approved by the Livestock Expert ~~to Govern-ment~~ on the site selected for the purpose.

(17) As in the slip.

In this lease the words "lessee" shall include the lessee, his heirs, successors, legal representatives and permitted assignees.

Submitted with reference to the proceedings ending with the office note dated 23-9-41.

2. Govt. may accept the Solicitor to Govt's view that it is advisable to grant a joint lease for the grazing plot of about 200 acres adseparate lease to each of the four lessees in respect of the cultivable plot measuring about 100 acres. The draft G.R. mentioned in para. 2 of the office note dated 23-9-41 has been amended accordingly.

3. The two presumptions made at (a) and (b) in the Solicitor's u.o.r. dated 18-10-41 are correct.

4. ~~[illegible]~~ In order to ensure that the lessees properly observed the terms and conditions of their leases it is necessary to ask them to execute a bond for Rs.500 and also to procure a surety for the like amount. It seems that this ~~seems to~~ would be sufficient. If so, the words " or such other amount as may be fixed by Govt." in condition No.10 in the leases as drafted by the Solicitor to Govt. may be deleted.

4 pages 115 & 117 ink

5. As regards condition No.15 in the individual lease reg. the plot of 25 acres, it seems that the word "thus" used by the Commr. is important and may be retained. If approved, the Solicitor's draft will be amended accordingly.

6. Some other necessary changes in the Solicitors drafts, ~~have been in the Solicitor's drafts~~ have been indicated

in pencil.

7. It is not clear why the Solicitor has omitted the two conditions at "A" (on p.107) in the Commr's draft. These appear to be necessary and the Solicitor may be asked to incorporate them in the leases in a suitable manner.

p.11.41

A(R))

It appears to me that in one respect, at any rate, the effect of the two separate draft leases is different from that of the Comrs' combined draft. Under cl (3) of draft 1, p.113 the lessee has to buy not less than 6 Ichthari Comrs. by cl (3) of draft 2 also p.125 prescribes the same condition. This means that each lessee has to buy not less than 12 Comrs. Is this intended? My reading of the Comrs' draft is that the minimum number to be specified, in respect of both together, is only 6 & not 12.

RD

x:

Submitted with reg to the Secy's note on the opposite page.

The intention is that as a whole under the scheme, each cultivator should purchase ~~bullocks~~ not less than 6 cows. The Livestock Expert will also not be bound to procure more than one Khillari bull. The amount of the bond to be executed by each cultivator in respect of the whole scheme, will be Rs. 500/- only with a surety for the like amount.

The Commr's conditions have been agreed to by the cultivators & it is likely that they will not each agree to purchasing 12 cows to begin with & also to executing 2 bonds of Rs. ~~5000~~ 500 each with 2 sureties for the like amounts.

Clauses (3), (4) & (10) of both the leases will have therefore to be amended. The Solicitor to Govt may be requested to do so.

Yes. I agree also in the above

Secy 10-11-41

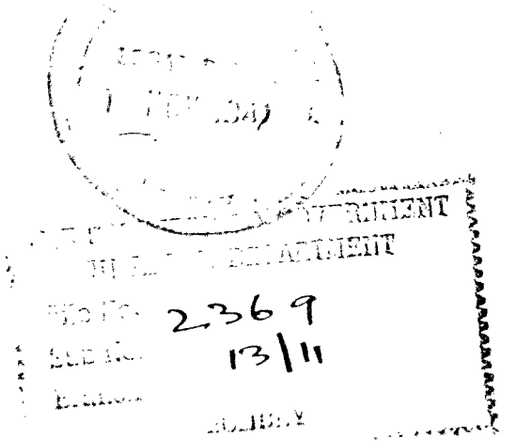
# pages 113 & 125
‡ pages 115 & 127

dated 12/11/11



The Secretary, Revenue Department thinks that condition (3) (p.125) which is similar in terms and which is repeated in both the draft leases may be interpreted to mean that the lessee is bound to purchase 6 khillari cows under each of the two leases. To remove any doubt and to make the meaning clear, draft lease II may be amended by omitting clauses (3) to (5), (7) to (9) and (12), which are all in connection with the khillari cows and breeding bull. Clause (13) of draft lease II may be amended as shown below and may be transferred as condition (1) so as to show that both the leases are in connection with the same project:

"(13). The said plot shall be used jointly by all the lessees for grazing the khillari cows and breeding bull maintained by them under the lease in respect of about 25 acres of land at Galgali which has been leased separately to each of the four lessees in connection with the Combined Cattle Breeding and Mixed Farming Project. The said plot shall not be used for any other purpose."

2. Clause (10) of draft lease II.- As it is the intention that only one sum of Rs.500 is to be deposited by the lessee under draft lease I, the said condition (10) may be deleted from draft lease II. It may however be pointed out that this condition which will appear in draft lease I cannot be invoked in support of any forfeiture of the deposit money for breach of any condition of lease II. If it is intended by Government that the condition regarding deposit and its forfeiture should cover both the plots, condition (10) in draft lease I will have to be further amended as follows. Revenue Department may decide which draft carries out the the administrative intention.

This is the intention.

"(10). The lessee shall execute a bond for Rupees hundred (Rs.500) and shall procure a surety for the ... of this for the proper observance of the terms and conditions ... jointly lease and of the lease of land at Yadahalli ...

and Mixed Farming Project, so far as they are applicable to him, and in the event of his not observing all the terms and conditions of this lease and of the joint lease referred to above, the full amount of the bond or such part thereof as the Collector may determine shall be forfeited to the Governor of Bombay and the said plot shall be resumed by the Government without any compensation".

3 5. Para 7 of R.D. note (p.134).- Condition (4) at p.107 ante was omitted as it was not considered necessary in view of one combined lease which was proposed by the Commissioner, Southern Division. Under the combined lease for breach of any of the conditions of the lease the whole land i.e. both the plots were liable to be resumed by Government. (Vide condition 10 (p.105)). But as it is now agreed to have two separate leases, it is necessary to provide for a condition in draft lease II on the lines of draft condition (4) (p.107) suggested by the Commissioner, Southern Division.

The condition may run thus:-

"If any one of the lessees, who is a lessee under this joint lease, and is also a lessee of plot of land at Galgali in connection with the Combined Cattle Breeding and Mixed Farming Project, ceases to be a lessee of land at Galgali, he shall immediately resign his rights hereunder without any compensation."

Condition (5) at p.107 ante is not necessary as the second draft lease is a joint lease and no single lease has any more rights than the others in the land.

4. A fresh draft of lease II has now been forwarded for the approval of the Revenue Department. It carries out the amendments pointed out in the above observations.

Solicitor to Government.

P.T.O

U.R. to R.D., No. 10019, dated the 21st November 1941.

Rev. Deptt.

Submitted with ref. to the proceedings ending with the Secy's note dt. 10.11.41. p.137 and p.157 ante

2. The suggestion made in para. 1 of the Solicitor's nor. dt. 21.11.41 may be accepted. As regards para. 2 of the nor. it is necessary to amend ~~para~~ clause 10 of lease I because the intention is that the condition reg. deposit & its forfeiture should cover the whole scheme. The suggestion made in para. 3 of the nor. may also be accepted. Since, however, the intention is that ~~if~~ no lessee should hold only one plot under the scheme, in other words, because it is necessary that each lessee should accept the two plots to work the whole scheme (cattle breeding & dry farming) & not only one plot, it must be laid down that whenever a lessee ceases to hold the cultivable area, he should automatically cease to hold the grazing area also & vice versa. The Solicitor's clause (8) in lease II has therefore been slightly amended in pencil and a corresponding clause (17) has been inserted in lease I.

3. The appended GR & the revised draft leases are now submitted for approval.

GOVERNMENT OF BOMBAY.

REVENUE DEPARTMENT.

Resolution No. 6057/39-I.

Bombay Castle, 3rd December 1941.

Letter from the Registrar of Co-operative Societies and Director of Rural Development, No. ADM/RUL-12, dated the 20th February 1940.

Government Memorandum No. 3591-H/33, dated the 2nd March 1940, to the Director of Agriculture.

Letter from the Director of Agriculture, No. S-68/5338, dated the 5th May 1940.

Memorandum from the Commissioner, Southern Division, No. V.L.T. 76, dated the 22nd May 1940.

Letter from the Director of Agriculture, No. S. 68, dated the 1st April 1941.

Memorandum from the Collector of Bijapur, No. V.L.T. 5, dated the 10th April 1941.

Memorandum from the Commissioner, Southern Division, No. V.L.T.-76, dated the 15th May 1941.

RESOLUTION.—Government considers that the scheme for establishing a "Cattle Breeding Farm" at Yadahalli, peta Bilgi, district Bijapur, is defective and should be abandoned. The site comprising Survey No. 215 of Galgali and Survey No. 225-A of Yadahalli measuring 117 acres and 10 gunthas and 200 acres, respectively, selected for that farm should, however, be utilised for establishing a combined cattle breeding and mixed farming project. Government is accordingly pleased to direct that Survey No. 225-A of Yadahalli shall be granted to the four cultivators mentioned below* on a joint lease and that a plot of 25 acres out of the cultivable area of about 100 acres in Survey No. 215 of Galgali shall be granted to each of them on separate leases, both the joint and separate leases remaining operative for 15 years, in the first instance. The Collector of Bijapur should be requested to ask the cultivators to execute the leases in the appended forms.

*(1) Mr. R. M. Desai of Yadahalli.
(2) Mr. Mallangouda Patil of Galgali.
(3) Mr. Lilachand Dipachand Gujjar of Yadahalli.
(4) Mr. Ramappa Yenkateppa Beradar Patil of Yadahalli.

2. The Collector should also be requested to obtain from the Director of Agriculture an annual report on the general working and progress of the scheme and submit it to Government through the Commissioner, S. D. A copy of the report should also be forwarded to the Wilson Anti-Famine Institute, Bijapur.

By order of the Governor of Bombay,

Accompaniments to Government Resolution, Revenue Department, No. 6057/39-I, dated the 3rd December 1941.

Form of lease of land granted for the " combined cattle breeding and mixed farming project " to be executed by the lessees separately.

To

This is to certify that Mr. of , taluka , district (hereinafter called " the lessee ") has, subject to the provisions of the Bombay Land Revenue Code, 1879 (Bom. V of 1879), and the rules made thereunder, and subject to the conditions hereinafter specified, been allowed by the Governor of Bombay (hereinafter referred to as " Government ") to occupy for the purposes of " The Combined Cattle Breeding and Mixed Farming Project " for a period of 15 years, commencing from day of 194 (hereinafter called " the said term ") a plot of land situated in the village of Galgali, petha Bilgi, district Bijapur, measuring about 25 acres and more particularly described in the schedule hereunder (hereinafter referred to as the said plot) :—

(1) The lessee shall not claim any right to the trees now existing or growing hereafter in the said plot but shall maintain the trees in good condition and shall not cause any loss, damage or injury to them.

(2) The said plot shall be handed over back by the lessee to the Government on the date of expiry of the said term in the same good condition in which it was at the time of leasing the said plot, ordinary wear and tear excepted.

(3) The lessee shall within three months of his taking possession of the said plot buy at his own expense not less than six Khillari cows approved by the Livestock Expert to Government, Bombay Province (hereinafter referred to as the Livestock Expert) and shall make every attempt to increase their number.

(4) A Khillari bull will be supplied by the Livestock Expert on Premium Bull System, i.e. either at 1/2 cost and no maintenance or if the lessee pays full cost of the bull, with maintenance at Rs. 7 per mensem.

(5) The lessee shall maintain the cows and their progeny in good condition and follow the instructions of the Livestock Expert in regard to his breeding policy.

(6) The lessee shall stock such quantity of hay and prepare such amount of silage as is determined by the Livestock Expert on the grazing area leased to him jointly along with other lessees by Government for the purpose under the project aforesaid, in order to supplement the grazing available there. During the non-monsoon months when the " Kuran " area is accessible, the herds shall be removed to the area leased hereunder and shall be maintained there. The manure shall be stored on the said plot and applied to the cultivable area in the plot.

(7) The lessee shall maintain all the young stock until it is fit for breeding. Thereafter the lessee may dispose of the young stock with the sanction of the Livestock Expert, the first preference being always given to the nominees of the Wilson Anti-Famine Institute, Bijapur.

(8) The lessee shall see that the Khillari cows and their female progeny are served only by the bull supplied by the Livestock Expert as hereinbefore described.

(9) The lessee shall maintain a proper record of the service and breeding in respect of his herd.

(10) The lessee shall execute a bond for Rupees five hundred (Rs. 500) and shall procure a surety for the like amount for the proper observance of the terms and conditions of this lease and of the lease of land at Yadahalli leased jointly to him for the purpose of the Combined Cattle Breeding and Mixed Farming Project, so far as they are applicable to him, and in the event of his not observing all the terms and conditions of this lease and of the joint lease referred to above, the full amount of the bond or such part thereof as the Collector may determine shall be forfeited to the Government and the said plot shall be resumed by the Government without any compensation.

(11) The lessee shall allow inspection of the said plot, the sheds constructed thereon and the cattle and also of the records maintained by him, by the officers of gazetted rank of the Agricultural, Veterinary and Revenue Departments of the Government of Bombay.

(12) The lessee shall immediately make a report to the Mahalkari of Bilgi or to the Collector of Bijapur about the outbreak of any disease among the cattle and shall also arrange for their treatment or removal or disposal according to the instructions received by him either from the aforesaid officers or from the Veterinary department of the Government of Bombay.

(13) The lessee shall pay in respect of the said plot a *yearly* rent equal to the amount of assessment payable for it; such rent shall be paid on the dates fixed for the payment of land revenue in the village.

(14) The lessee shall carry out the cropping scheme drawn up from time to time by the Director of Agriculture, Bombay Province, in respect of the said plot.

(15) The lessee shall endeavour his utmost to catch silt in the area given to him along the river and also in the hollows of the flooded area by planting " Lakki " and shall thus stop washings by the floods of the river.

(16) For the purposes of affording shelter to the cows and their progeny the lessee shall construct on the said plot at his own expense a kachha shed (with a suitable compound or enclosure) of the type approved by the Livestock Expert on the site selected for the purpose.

(17) If the lessee who is also a lessee under the joint lease in respect of a plot of land at Yadahalli in connection with the Combined Cattle Breeding and Mixed Farming Project ceases to be a lessee of the land at Yadahalli he shall immediately be deemed to have resigned his rights hereunder without any compensation.

In this lease the words " lessee " shall include the lessee, his heirs, successors, legal representatives and permitted assignees

No. of 1941.

Copy forwarded for information and guidance to

respect of lands of the --

No.V.L.T.-1.
Office of the W.A.F.Institute,Bija
Bijapur,19th November 1941.

From,

M.S. Moulvi, Esquire,M.A.
Collector and President,
Wilson Anti-Famine Institute,Bijapur.

To,

The Commissioner,
Southern Division,Belgaum.

Sir,

With referemce to your letter No.V.L.T.-76 dated 18-7-1941, I have the honour to state that the Kuran land of about 100 acres out of S.No.215 of Galgali measuring 117 acres & 10 Gunthas has been leased out during the following years for the amounts shown against them :-

Year.	Lease Amount.
(1) 1939-40.	Rs.1450/-
(2) 1940-41.	Rs.1200/-
(3) 1941-42.	Rs.1600/-
	Rs.4250/-

Though the Scheme was started in 1937(October) some portions of the lands which was originally leased out by the Forest Department did not come into the possession of the Institute till the end of 31-8-1939. So, the land was began to be leased out from the year 1939-40.

2. In view of Orders contained in your No.V.L.T. 76, dated 17-6-1940 the feeding charges for the maintenance of the cows and their progeny has been paid as shown below :-

Period.	Amount of feeding charges paid.
(1) For the period from 16-10-37 to 31-5-40.	Rs. 912- 8-0
(2) For the period from 1-6-1940 to 31-5-41.	

...t of the lease amount of Rs...

12-8-0 was made and the balance was credited to ...ment on 31-3-1941. As regards the recovery of ... ...ase amount of Rs.1200/- for 1940-41, the lessees ... ...uested for suspension of the recovery of the lease ...int as the Kuran land leased out did not yield any ...op during the year 1940-41 and half suspension of ...and Revenue being given to Galgali village. Their ... ...quest was not granted. But however the Board of ... ...irectors of the Wilson Anti-Famine Institute resolved ...n their meeting of 25-6-1941 that a sum of Rs.800/- out ...f Rs.1200/- be recovered from them and recovery of the ...emaining amount be postponed till the end of 31-3-1941 ... copy of the resolution enclosed). Accordingly, Rs.800 ...ave been recovered and the feeding charges of Rs.600/- ...ave been paid. The maintenance charges of the animals ...rom 1-6-1941 onwards is due to be paid to Mr. Mallangouda ...atil. Government's approval or otherwise to the detailed Scheme is still pending and in view of the fact that the Kuran land of the Farm has been leased out for the current year it appears necessary for making provision for the feeding charges from 1-6-1941 to the end of the current financial year i.e. 31-3-1942. However, a sum of Rs.600/- for this purpose is set aside and the balance of Rs.1600/- out of the income from the land will be credited to Government early.

4. A statement showing the receipts & expenditure in respect of the land for the years from 1939-40 to 1941-42 is enclosed herewith for favour of perusal.

I have the honour to be,
Sir,
Your most obedient servant.

Sd/- M.S. Moulvi.

Collector and President,
Wilson Anti-Famine Institute,
Bijapur.

Statement showing the receipts & expenditure in respect of Kuran Land of about 100 acres out of Survey No. 215 of Galgali, measuring 117 acres & 10 Gunthas of the Cattle Breeding Farm at Yedhalli(Bilgi J

The Commissioner,
Southern Division, Belgaum.

Sir,

With reference to the correspondence ending with this office letter No.V.L.T.-1, dated 19th November 1941 on the subject mentioned above, I have the honour to state that the balance of Rs.1600/- out of the income from the land of the Cattle Breeding Farm, Yedhalli referred to in para 3 of the letter mentioned above was credited into the Bijapur Treasury on 29th January 1942 (Rs.1200/-) and 28th March 1942 (Rs.400/-) as directed by Government in their Memorandum No.6057/39-29409/H, R.D., dated 18th December 1941. The amount of Rs.400/- remained then unrecovered together with the balance of Rs.200/- shown in columns 4 and 8 of the statement accompanying the letter mentioned above, was paid as feeding charges of the Cattle of the Farm for the year from 1-6-1941 to 31st May 1942.

2. Since Government in their Resolution, No.6057/39-I,R.D., dated 3rd December 1941 ordered that the scheme for establishing a "Cattle Breeding Farm" at Yedhalli should be bandoned as being defective, the Board of Directors of the Wilson Anti-Famine Institute, Bijapur resolved in their meeting held on 21st June 1942 that the herd of cattle and the shed of the Cattle Breeding Farm, should be sold by public auction. Accordingly, the sales were held of the herd of cattle in July 1942 and of the shed in August 1942 and Rs.600/- and Rs.325/- respectively were realised. Sanction may kindly be accorded to credit the sale proceeds of Rs.925/- of the cattle and the shed to Government.

3. The Examiner, Local Funds Accounts, Bombay in para 4 of his Audit Note No.L.-17/1-3159, dated 2nd December 1941 has pointed that the requisite approval of Government should be obtained to the credit of the balance of Rs.537-8-0 out of the lease amount of Rs.1450/- of the Kuran land for the year 1939-40 referred to in para 3 of the letter mentioned in para 1 above. It is, therefore, requested that necessary approval of Government for the credit of the amount may kindly be obtained.

Your obedient servant,

Sd/- I.T.Almaula,

Collector and President,
Wilson Anti-Famine Institute,
Bijapur.

Through:-
The Collector of Bijapur,w.c.

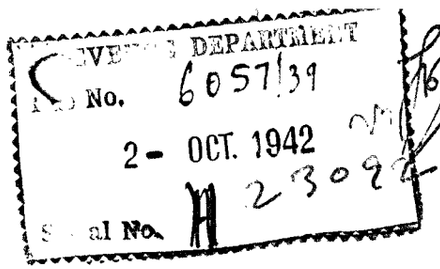
Audit Note on the accounts of the Distfict Rura Development Board, Bijapur, for the year 1940-41.

Present Audit.

4. Out of the rent of Rs 1,450 realised in connection with the lease of the kuran lands (i.e. Survey No. 215 of Galgali) for the year 1939-40, a sum of Rs 912-8-0 was spent on feeding charges of the cattle of the Modak cattle breeding farm, Yedhalli, for the period from 1st October 1937 to 31st April 1940. The balance of Rs 537-8-0 was credited to Government on the ground that there were no specific orders of Government or of the Commissioner as regards the disposal of the unspent balance. The requisite approval of Government should be obtained to the procedure adopted."

Below Collector of Bijapur's No. V.L.T.-5 dated
23rd September 1942.

No. V.L.T.-76.
Office of the Commissioner S.D.
Belgaum, 30th September 1942.



Submitted.

2. The Wilson Anti-Famine Institute is being asked to credit the sale proceeds (Rs 925) to Government.

3. The credit of Rs 537-8-0 (being the balance of the lease money for 1939-40) may be approved. A copy of para 4 of the Audit Note on the accounts of the Rural Development Board for 1940-41 is enclosed.

Commissioner S.D.

Revenue Department.

Copy to the Collector of Bijapur for necessary action on paragraph 2.

H.

Submitted with ref. to G.R.,No.6057/39-I,date
3rd December 1941.

2. The Cattle Breeding Farm at Yadahalli, district Bijapur, was found defective and ultimately abandoned. (vide G.R.,No.6057/39-I, dated 3-12-1941). The cultivable area, comprising survey No.225-A of Yadahalli and survey No.215 of Galgali was given out for cultivation. Out of the amount of Rs.1450/- realised by leasing survey No.215 of Galgali, an amount of Rs.912-8-0 was paid as feeding charges and the balance of Rs.537-8-0 was credited to Govt. on 31-3-1941, by the Collr. of Bijapur without the specific orders of Govt. As recommended by the Commr. S.D. the procedure adopted by the Collr. of Bijapur may be approved. The letter overleaf may issue.

No. S-68/4286 of 1945 Poona 19th February 1945.

Subject: Annual Report of the Cattle Breeding and Mixed Farming Scheme, Yedahalli.

Reference your letter No. V.Dt.-5 dated 18th November 1944 and subsequent remind r of even number dated 20th Dec. 1944. I enclose herewith the Annual Report of the Cattle Breeding and Mixed Farming Scheme, Yedahalli, in duplicate received from the Livestock Expert to Government B.P. Poona, as submitted by the Divisional Inspector of Cattle Breeding Dharwar, to him for your information and necessary further action.

Sd. x x x
For Director of Agriculture

Dharwar 1st February 1945.

To

The Livestock Expert to Government,
Bombay Province, Poona.

Reference your No.195 dated 5th instant.

Subject:- Annual report of the cattle Breeding and mixed fariming Scheme Yedahalli.

I have the honour to submit the following report upto 30-11-1944.

The members of the association maintained the Khillar herd. A good breeding bull of khillar breed was secured from Pandharpur area to cross the cows of the association.

There has been a total increase of 9 animals in the cattle strength. The herd of each of the members was strengthened by 2 to 5 animals. The details of the strength of each cattle are as below:-

S.No.	Name of member.	Animals maintained last year.	Addition due to birth.	Transfered	Death.	Present strength.
1).	Shreemant R.M.Desai.	Cows 6	-	-	-1	5
		Heifers 1	-	5		6
		Y.Bulls.-	-	4		4
		F.Calves5	1			1
		M.Calves4	1			1.
	Total	16	2			17.
2)	Mr.M.V.Nyamgowdar.	Cows 6	-	-	-	6
		Heifers 1	-	2	-	3
		Y.Bulls.2	-	2	-	4
		F.Calves.2.	1	2	-	1
		M.Calves 3.	1	-	-	2.
	Total	14	2			16.
3)	Mr.R.V.Patil.	Cows 6	-	-	-	6
		Heifers1	-	3.	-	4
		Y.Bulls2.	-	-	-	2.
		F.Calves.3.	2	-	-	2.
		M.Calves.-	3	-	1	2.
	Total	12	5		1	16
4)	Mr.Leelchand D.Gujar.	Cows 6	-	-	-	6
		Heifers 1	-	5	-	6
		Y.Bulls 2	-	-	-	2
		F.Calves.6	1	-	-	2.
		M.calves.1	1	2	-	2.
	Total	16	2			18
	Grand Total :-	58	11	-	2	67

The progeny of the breeding bull (previous) was inspected and it had a typical colour.

The members of the association are housing the cattle individually.

The cattle are now housed in a temporary shed built in the land and the owners of the herds have their own arrangements.

Cultivation.

Out of 117 acres of land at the disposal of the association 17 acres are under forest and the land has not yet been taken possession of for use of cattle. The rest 100 acres is under cult and is not completely surveyed. For the present the members

divided the land into four parts and taken possession upto 25 acres for cultivation by each member. Now on this area of 25 acres the member - -every one has sown the land with maize, jowar, ~~waland~~, wal, and Tur. The maize crop was cut in the field. Wal is grown intensively.

The approximate area under each crop is as below.

1) Gund jowar for green fodder - - - - - - - - 6 acres.
2) " " " grazing and dry fodder 10 "
3) maize for green fodder. - - - - - - - - - 2. "
4) Wal, tur, and other pulses - - - - - - - - - 6 "
5) Fallow. - - - - - - - - - - - - - - - - - - 1 "

---25 Acres.

The standing crops are very good. Each member would get an yield of 32 bags (each bag of 128 lbs.) as grains and upto 40,000 lbs. of dry fodder Kadbi.

The pulse mixture is fed green. The grazing was inspected and they were asked to store fodder systematically.

The area along the bank of river is kept fallow. The members have been suggested to grow Shevari along the bank.

In conclusion, the working of the association is satisfactory. The members are making judicious use of the area of 117 acres granted to them. They are also doing their part in production of "Grow more food & fodder, cattle".

The following suggestions are made for execution during next year:-

1) Land of 17 acres should be aportioned to each member.
2) Grazing land should be surveyed and well remarked.
3) The two ready bulls with the association should be put out in the village Galagali.
4) All extra fodder should be properly stored.

Sd./- S.K.Angadi.
Divisional Inspector of Cattle Breeding, S.D.Dharwar.

and fed to cattle. Jowar, Wal, and Tur, is the standing crop

(District: Bijapur.

Report upto 31-8-1945.

---oOo---

The four members of the scheme have mantained their herd of Khillar Breed in very good condition. The Khillar Bull purchased by them two years ago is now giving good sturdy calves. The whole herd has increased by 15 heads during the nine months since the last report.

2.The strength of the herd is:-

Member	Cows	Heifers	Young bulls	Female calves	Male calves	Total
Mr. R.M.Desai.	6	5	4	2	4	21
Mr.Mallanagouda V. Patil..	7	2	5	4	3	21
Mr. R.V.Patil	7	3	2	4	3	19
Mr. Lilachand D. Gujar ..	7	6	3	2	3	21
Total.	27	16	14	12	13	82

The last balance was 67 heads, and this figure of 82 heads shows an crease of 15 heads. There were 18 births during the year, and 3 deaths among the calves only.

3.The cattle are all housed seperately in each member s sh

4.Out of 14 young bulls, 7 bulls have attained serviceab age. These were inspected by the Divisional Inspector of cattle Breeding, Dharwar. Out of these 7 bulls,4 are reserved for use breeding bulls in the District. Three bulls are off-type and ar permitted to be disposed off as the owner likes.

5.Out of 117 acres given out for the scheme, 100 acres -- 25 acres per member ---------are under cultivation of jawar,wal tuver and chavli. Seventeen acres are forest lands.The total acrease under each crop is:-

Jawer 55acres

Wal, tuver,

Chavali, 40 acres

Fallow, 5 acres

The large area under legumes is recommended as they bind the soil,which is very undulating and stands risk of beir away when the Krishen river rises.

The stand of crops has been good.

6.The members are taking keen interest in their cattle, and provision of fodder for them. The scheme on the whole is running satisfactorily.

Sec to the Govt of India

dt/ 14th November 1950

It is not known whether the Cattle breeding and mixed farming project at Yedahalli, Distt. Bijapur relates to any of the P.W.R. Schemes. Even assuming that it has relation to one of the P.W.R. Schemes it is pointed out that no useful purpose will be served by maintaining on our records such projectwise or villagewise infn. This ~~Deptt. does not therefore desire to keep such papers on its records.~~ information is not regd by this Deptt

2. These papers may be returned to the A&F.D. ~~D.D.~~ with the above note.
